

Dear Patients of Virginia Vision Therapy Center,

It has always been the highest priority of Virginia Vision Therapy Center that both patients and staff are safe and healthy. If you feel unwell, we recommend that you contact your primary healthcare provider and/or the Department of Health for your county or state. If your symptoms match those of COVID-19 or you think you may have COVID-19, we recommend you contact the aforementioned offices, as well as visit a testing site near you.

Below are a list of testing sites near the different VVTC offices. Should you choose to visit one of these testing sites, we highly recommend contacting the testing site before visiting to ensure that none of the information displayed below has changed, as well as obtain information about prices.

We hope that you continue to stay safe during this uncertain time.
